

The background of the entire page is a photograph of a large industrial facility, likely a refinery or chemical plant. It features several tall, cylindrical distillation columns or storage tanks, interconnected by a complex network of pipes, walkways, and structural steel. The sky is clear and blue. The image is partially obscured by a dark blue vertical bar on the right side, which contains the company's contact information.

Construction Services and Maintenance

Contech offers specialized construction and maintenance services for process automation and information management projects. These services generally include the installation of equipment, systems, and services like those listed below:

Construction Services

Contech has been providing Instrument, Electrical, and Automation construction services on the Gulf Coast since the early 1990's. We can provide many different services for your facility with some of them being the following:

- Conduit, Cable Tray, and Support Systems
- Trenching, Underground Conduit, Duct Banks, Pull Boxes, and Manholes.
- Junction Boxes, Termination Racks, RTU's, Multiplexers
- Instrument and Control Wiring, Cabling and Terminations
- Instrument and Control Valves Mounting, Piping, and Tubing
- Power Wiring, Cabling, and Terminations
- Wire Marking and Tagging
- Fiber Optic Cabling and Terminations
- Field Instruments and Control Valves
- Power Distribution Systems
- Transformers and Switchgear
- Alarm Systems
- UPS Systems
- HCAV Systems for Hazardous Environments
- Communication Systems
- DCS and PLC Systems
- Process Analyzer Systems
- Combustible Gas Detector Systems
- Flame Detection Systems
- Continuous Emissions Monitoring Systems
- Burner Management Systems
- Control Buildings and Enclosures
- Control Panels and Consoles
- Closed Circuit TV Systems
- Heat Tracing Systems
- Industrial Lighting Systems
- MCC's and Motor Controls
- Interlocks and Shutdown Systems
- Electrical Devices for Hazardous Environments
- Construction Inspection Services
- Subcontracts Administration
- Instrument Calibration and Loop Check
- Process Analyzer
- I&E Technicians
- Startup Assistance
- 'HOT TRANSFER' of On-Line Control Systems without Plant Disruption

Maintenance Services

Contech supplies maintenance services to several clients in the region. We can help in many areas of your instrument and electrical plant maintenance with some of them being the following:

- Instrument Calibration and Loop Checks
- I&E Turnaround Services
- I&E Plant Startup Assistance
- Analyzer System Maintenance
- I&E Technicians and Inspectors
- Analyzer Technicians and Inspectors
- Conduit, Cable Tray, and Support Systems Maintenance
- Junction Boxes, Termination Racks, RTU's Maintenance
- Multiplexers Maintenance
- Field Instruments and Control Valve Maintenance
- UPS Systems Maintenance
- DCS and PLC Systems Maintenance
- Process Analyzer Systems Maintenance
- Control Panels and Consoles Maintenance
- Heat Tracing Systems Maintenance
- Industrial Lighting Systems Maintenance
- MCC's and Motor Controls Maintenance
- Interlock and Shutdown Systems Maintenance
- Electrical Devices in Hazardous Environments
- Maintenance of On-Line Devices in Operating Facilities
- Maintenance Purchasing Systems
